DOCKET FILE COPY

Re: Certification of Public Notice of Network Change under Rule 51.329(a)
CC Docket No. 96-98

Dear Ms. Dortch:

Pursuant to the notification requirements in §51.325 -- §51.335 of the Commission's rules, AT&T hereby submits this certification of Public Notice of Network Change. A description of the network change is provided below:

Number	Type of Change Planned	Location of Change
ATT20140730L.1	Conversion from the fiber fed FITL platform to the newly deployed fiber fed GPON/FTTP platform in the following ONUs in Lawrenceville, GA wire center (LRVLGAOS). (see attachment)	Lawrenceville, GA

This notice is also available at: <https://ebiznet.att.com/networkreg/>

If you have any questions, please do not hesitate to contact me at (202) 457-2164.

Sincerely,

Victoria Carter-Hall

Public Notice: can be obtained on the Internet at:
<https://ebiznet.att.com/networkreg/>

Network Change:

BellSouth Telecommunications LLC. d/b/a AT&T Georgia is announcing that the existing Fiber in the Loop (FITL) architectural platform (including DFITL, IFITL, FITLA, MX, EMX) in the Lawrenceville, GA wire center (LRVLGAOS) is migrating to the newly deployed Gigabit Passive Optical Network (GPON)/Fiber to the Premises (FTTP) architectural Platform. This conversion is converting 98 Optical Network Unit's (ONUs) from the fiber FITL architectural platform to the new fiber GPON/FTTP platform. There are currently no known UNE Competitive Local Exchange Carrier (CLEC) circuits working in these ONUs impacted by this conversion.

Description of Type of Changes Planned:

Conversion from the fiber fed FITL platform to the newly deployed fiber fed GPON/FTTP platform in the following ONUs in Lawrenceville, GA wire center (LRVLGAOS).

LRVLGAOS NCN
MDU.xlsx

Description of Reasonably Foreseeable Impact of the Planned Changes:

Retail and Resale POTS-grade service will be transferred from the current fiber fed FITL platform to the new fiber fed GPON/FTTP Platform. The migration will affect AT&T POTS retail customers and CLEC resale customers. Consequently, this will cause a disruption to end users and any applicable reseller customer services, which we estimate will last potentially from one hour to five hours in duration as the customers' serving terminals are converted to the new platform. Any Information service providers relying on these types of circuits could also have their service affected. **Currently there are no known UNE CLEC circuits that will be displaced or disrupted but such effects may occur. All ONUs with known UNE CLEC circuits will be addressed with another Notice of Network Change (NCN) in the future when UNE CLEC circuits are expected to have churned off the FITL platform. AT&T will continue to offer CLECs available sub-loop UNEs at multi-unit premises. Any resale CLEC POTS lines will be migrated to the new Platform.**

Location of Change:

CLLI Code/Statewide	City	State	Implementation Date
LRVLGAOS	Lawrenceville	GA	2 nd & 3 rd Quarter 2015
